

Accessible Car Parking

CP

- External application
- British Standard ground markings
- Heat bonded
- Powder coated
- Steel posts
- Aluminium signs
- Just one item in the Configure range of over 200 auxiliary aids and adaptive products

Configure provides comprehensive accessible car parking packages. These include a full range of free standing directional and wall mounted parking signs and British Standard ground markings using the latest in thermo plastic paints and cross hatchings. A raised sign is needed to identify a disabled parking space when surface markings are obscured by fallen leaves or snow. Painted cross hatching areas are required to ensure that the access route from car park to pavement is not blocked by parked vehicles.
