

Portable Ramps

GHP00700 660mm GHP01000 1000mm

GHP01370 1360mm GHP01800c 1760mm

Steps and raised thresholds are the single biggest barrier to independent access for people with a mobility impairment. Configure's lightweight portable ramps are ideal for providing instant access to buildings where a permanent ramp is either impractical or uneconomical.

The ramps are single fold with a non-slip surface, safety side edges and a practical carrying handle. With a 300kg payload this is the practical choice when it comes to easy access solutions
