

WC Hand Rail Set

WC

configure

Configure provides a full range of WC handrails and fittings for accessible WCs, including items such as taps and door locks, designed with ease of use in mind.

The set provides ambulant WC handrail provision for people who experience mobility problems, who will benefit from the addition of horizontal grab rails at a height of 680mm from the floor in an otherwise standard WC.

WC Hand Rail Set

configure

WC

Specialist installation is required

In order to be effective, the features within an accessible WC must follow a prescribed pattern and layout.

Various transfer techniques are adopted to move from the wheelchair to the WC, typically front, oblique or angled and lateral transfer.

Unless the features within an accessible WC follow the prescribed patterns, specific transfer techniques may not be achievable.

Epoxy coated to any B.S or R.A.L colour

Rails	35mm in diameter
Hinged arm support	750mm
Back rest rail	400mm with detachable padded cushion
Grab rails	600mm
